Peter Linford holds the position of Vice President with the Nasser S Al Hajri Corporation (NSH), a Saudi Arabi based company with a proven performance record for delivering the highest standards of safety and quality projects on time and on budget, NSH ([www.alhajricorporation.com](http://www.alhajricorporation.com)) employing 65,000 is highly regarded in its capability as well as its reliability for quality industrial contracting.

Peter Linford additionally holds the position of Senior Vice President with NSH sister company Gulf Asia LLC also providing industrial contracting capability that compliments the capability and established reputation of NSH in Saudi Arabia and across the Gulf region.

As Vice President of the RP Group in Bahrain and Director at the New Millennium School (NMS) in Manama, Peter Linford provides a management and leadership role for NMS in strategic direction and management support of the Principal and school administration.

Peter Linford has extensive experience in international training and his role with the school has synergies and alignment with the programs developed and delivered from OGM Technical Institute.

**Chief Executive Officer**  
**Nasah Australia Pty Ltd & OGM Technical Institute Pty Ltd**

Peter Linford is the CEO of NaSAH Pty Ltd and OGM Technical Institute Pty Ltd now established in Australia. Together both companies bring world recognised contracting expertise and workforce skills to meet global demand and importantly, provide the necessary experience to support the development of skills and expertise internationally as well as in Australia.

NaSAH Pty Ltd has been established to supply industrial EPC contracting capability, developed through Nasser S. Al Hajri Corporation, for LNG, resources and mining projects in Australia.

OGM Technical Institute Pty Ltd has been established to work in partnership with recognised Australian technical institutions to train, assess, certify and supply skilled workers for energy and resource projects, ensuring a quality supply of labour workforce expertise. OGM in collaboration with Central Institute of Technology (TAFE) and VETASSESS (Victorian Government) exports Australian training expertise internationally to build workforce capability and workforce supply for projects internationally.

The capability and expertise of NaSAH and OGM provide assurance for project delivery and provide confidence for future investment and resource development projects in Australia. NaSAH and OGM will create jobs, train workers to global industry leading skill levels and develop and provide construction capability and capacity to support Australia and Australians.
